

City of Santa Barbara
Police Department

Memorandum

DATE: September 14, 2010

TO: Fire and Police Commission

FROM: Lt. P. McCaffrey, Combined Communications Center Manager

SUBJECT: Filtered Calls for Service (CFS)

Preface: This report was broken down into date, day of week (Day), type of call received (Call Type), time call received (Rec'd), time dispatched (Dsp), time on-scene (OS), and the location. Although all these incidents are classified as Priority 1, by their very nature, some are lower priority than other. For example, a late reported priority 1 call in which the R/P is at Cottage Hospital receiving care would be lower than the same call that just occurred (JO). Also, many of these calls were received as priority 3 calls and then re-classified as Priority 1 when more information was made available. In some cases, this was done after the officer was on-scene. A common example of this was a non-injury Traffic Accident (TA) reclassified as TA-Injury. This is notated as 'Changed to.'

Case #	Date	Day	Call Type	Rec'd	Dsp	OS	Location
08-7243	1/31/08	Thu	TA-Injury	1202	1213	1236	Hope/Pueblo
Rec'd as non-injury; Changed to (minor) Injury T/A
